

CAIO ENRIQUE INÁCIO DE ALMEIDA

Junior Software Developer | Backend, Full Stack & Automation

Brasília, DF • (61) 99235-4719 • caioenriqueinacioalmeida@gmail.com • github.com/Caio-enrique

PROFESSIONAL SUMMARY

Junior Software Developer and Computer Science student with hands-on experience in process automation, web development, APIs, and internal business systems. Skilled in Python, Java/Spring Boot, TypeScript, React, Next.js, Node.js, SQL, and Supabase. Corporate experience building Selenium and Google Apps Script automations, dashboards, and integrations that reduce manual work and improve process visibility.

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, SQL, and C.

Backend: Node.js, Express, Spring Boot, Flask, FastAPI, REST APIs, and Webhooks.

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, and responsive interfaces.

Data: PostgreSQL, Supabase, SQLite, Prisma ORM, and PL/pgSQL.

Automation & tools: Selenium, Google Apps Script, n8n, Git/GitHub, Docker, Linux, Postman, and Jest.

PROFESSIONAL EXPERIENCE

Administrative Assistant & Automation Developer | EasyTech

2025 - Present

Brasília, Brazil

- Build Python and Selenium automations for TOTVS Protheus workflows, reducing manual steps in administrative and financial processes.
- Develop internal dashboards and tools using React, Node.js, APIs, Google Sheets, Apps Script, and Google Drive for operational tracking.
- Support invoicing, bank reconciliation, accounts payable, and accounts receivable while applying business knowledge to process improvement.

Human Resources Apprentice | Bunge Alimentos S.A.

2023 - 2025

Brasília, Brazil

- Managed employee and contractor documentation, onboarding, attendance records, and internal controls, supporting process compliance and organisation.
- Supported cross-functional teams using Excel, Word, PowerPoint, SharePoint, Teams, and professional communication.

SELECTED PROJECTS

SOS Docs Platform | *Next.js, TypeScript, Supabase, PostgreSQL* | [GitHub](#)

Corporate platform featuring authentication, task and checklist management, database migrations, access rules, and operational workflows.

GAEEB Project | *Next.js, React, TypeScript, Prisma, NextAuth* | [GitHub](#)

Web application with an admin dashboard, authentication, CRUD operations, registrations, internationalisation, SEO, and dark mode.

Taskflow | *Node.js, Express, Socket.IO, Prisma, Jest, Docker* | [GitHub](#)

Real-time collaboration system using WebSockets, data persistence, automated tests, and containerisation.

Corporate Dashboard & Automations | *React/Node.js, APIs, Apps Script, Google Sheets*

Internal solutions for displaying business indicators on corporate screens, organising documents, and automating operational workflows.

EDUCATION

BSc in Computer Science | UniCEUB

Expected graduation: 2027

Technical Education | Escola Técnica de Brasília - ETB

Expected completion: 2026

Brasília, Brazil
